SUMMARY

DevOps Engineer with hands-on production experience at 360XpertSolutions (February 2026 – July 2026) and currently channeling that expertise as DevOps Developer Faculty at Techzone Learning (July 2026 – Present) — building systems by day, shaping the next generation of engineers by design. Skilled in AWS, Kubernetes, CI/CD, GitOps, IaC, security scanning, and observability. Pursuing BSE at Bahria University (7th Semester, Expected Jun 2027).

EXPERIENCE

DevOps Developer Faculty

July 2026 – Present

Techzone Learning · Karachi, Pakistan

- Delivering structured DevOps training as part of the institute's Computer Technology & Languages program.
- Designing weekly sessions on CI/CD, containerization, and version control; mentoring students and providing career guidance.
- Supporting learners in bridging the gap between theoretical concepts and real-world implementation.

DevOps Engineer

February 2026 – July 2026

360XpertSolutions · Karachi, Pakistan

- Built CI/CD pipelines (Jenkins, GitHub Actions) with Trivy & SonarQube, reducing deployment time by ~40%.
- Managed AWS: VPC, EC2, EKS, ECS, IAM, S3, RDS, Lambda, WAF, CloudFront, GuardDuty, Route 53, Auto Scaling.
- Implemented GitOps with ArgoCD, Flux & Helm; automated IaC with Terraform & Ansible (~50% less manual effort).
- Built observability stacks (Prometheus, Grafana, Datadog, ELK); used LocalStack & MiniStack for AWS emulation.

PROJECTS

Distributed Task Manager

2026

- 3 microservices, Nginx LB, RabbitMQ, Redis, MongoDB, 11 Docker containers. GitHub Actions + Trivy CI/CD in <90s. Prometheus + Grafana monitoring.

E-Commerce Platform on AWS (Team Project)

2026

- Full AWS infrastructure with Terraform: VPC, EKS, RDS PostgreSQL, S3, ECR, IAM, EC2. Node.js + React live on AWS.

Orbit — Serverless Uptime Monitor

2026

- Serverless website uptime monitor with automated health checks, 3-strike email alerting, and live dashboard showing uptime %, response-time trends & auto-generated improvement suggestions. Built with Node.js and PostgreSQL, no-login flow.

CI/CD Pipeline Health Dashboard

- Real-time Grafana dashboard tracking DORA metrics across Jenkins & GitHub Actions pipelines.
